MEMORANDUM

To: Charles Gullickson (Penn Treaty/ANIC Task Force Chair), Richard Klipstein (NOLHGA)

From: Vincent L. Bodnar

Date: November 14, 2014

Subject: Penn Treaty Network American Insurance Company and

American Network Insurance Company

Estimate of Potential Guaranty Association Covered Net Liabilities

The attached exhibit summarizes the current estimates developed by Towers Watson Delaware, Incorporated ("Towers Watson") of the Guaranty Association ("GA") covered net liabilities of Penn Treaty Network America Insurance Company ("PTNA") and American Network Insurance Company ("ANIC") in a post-liquidation scenario as of December 31, 2013 for their long-term care insurance ("LTC") policies.

The data and information provided herein is subject to the Common Interest and Confidentiality Agreement, as amended, between Towers Watson, the Pennsylvania Insurance Commissioner as Rehabilitator of PTNA and ANIC (the "Rehabilitator") and the National Organization of Life and Health Insurance Guaranty Associations ("NOLHGA"), and should be maintained as confidential by NOLHGA and the GAs, except to the extent the parties to the Common Interest and Confidentiality Agreement agree to its broader release.

The values shown in the attached exhibit reflect estimates of potential GA covered net liabilities if the companies were to be placed into liquidation, and do not consider any potential application of the Moody's interest rate adjustment. The covered gross liabilities are based on Towers Watson's estimate of the covered gross premium valuation reserve, claim reserve and unearned premium reserves prior to the estimated asset transfer from the estate. The estate assets are based on the year-end 2013 market value of the assets held by PTNA and ANIC, and provided to Towers Watson for use in our analysis. The assets are assumed to be allocated in proportion to the covered gross liabilities of each policyholder using his or her pro-rata share of the gross liabilities as of December 31, 2013. These assets are assumed to be subrogated to each policyholder's respective GA. The covered net liabilities are the covered gross liabilities less the allocated estate assets. Only LTC liabilities have been included in this estimate of GA covered net liabilities.

The Towers Watson liability estimates are based on the assumptions and methods outlined in the July 14, 2014 presentation to the PTNA/ANIC Task Force. A complete, technical description of these assumptions is available to FBD and NOLHGA upon request. Vincent L. Bodnar, ASA, MAAA is the actuary responsible for the actuarial opinions contained in this communication and is qualified to render them. This document was prepared under the terms of the May 30, 2013 engagement letter between TW, FBD and NOLHGA. Distribution of this document beyond FBD, NOLHGA and its member GAs and advisors is not permitted without prior written consent.

Towers Watson represents and is responsible only to NOLHGA with respect to all matters relating to this exhibit. Any other user of this information will place no reliance on the data contained in the attached exhibit, or related thereto, that would result in the creation of any duty or liability by Towers Watson to the user.

Penn Treaty Network America Insurance Company and American Network Insurance Company Estimate of Potential Guaranty Association Covered Liabilities as of 12/31/2013
